

Content, vol. 64

*Jens Morten Hansen, Troels Aagaard, Jens Stockmarr, Ingelise Møller, Lars Nielsen, Merete Binderup, Jan Hammer Larsen & Birger Larsen:*  
Continuous record of Holocene sea-level changes and coastal development of the Kattegat island Læsø (4900 years BP to present)..... 1

*Emilie Grønbaek Springer, Jan Audun Rasmussen & Lars Stemmerik:*  
Distribution and significance of foraminiferal biofacies on an aphotic Danian bryozoan mound, Karlstrup, Denmark ..... 57

*Jesper Milàn, Hendrik Klein, Sebastian Voigt & Lars Stemmerik:*  
First record of tetrapod footprints from the Carboniferous Mesters Vig Formation in East Greenland..... 69

*Thomas Guldborg Petersen, Niels Erik Hamann & Lars Stemmerik:*  
Correlation of the Palaeogene successions on the North-East Greenland and Barents Sea margins ..... 77

*Ane Elise Schrøder, Bodil W. Lauridsen & Finn Surlyk:*  
*Obliquorhynchia* (gen. nov.): An asymmetric brachiopod from the middle Danian Faxe Formation, Denmark..... 97

*Thomas Weidner & Arne Thorshøj Nielsen:*  
*Tomagnostus brantevikensis* n. sp. (Trilobita) from the middle Cambrian of Scania, Sweden ..... 111

Bulletin of the Geological Society of Denmark · Volume 64 · 2016

# Bulletin of the Geological Society of Denmark

VOLUME 64 | 2016 | COPENHAGEN

# Bulletin of the Geological Society of Denmark

is published by the Geological Society of Denmark  
(DGF, Dansk Geologisk Forening), founded in 1893

## Chief editor

Lotte Melchior Larsen, Geological Survey of Denmark and Greenland (GEUS), Øster Voldgade 10, DK-1350 Copenhagen K, Denmark.  
Tel: +45 91333889; E-mail: lml@geus.dk

## Scientific editors

Lars B. Clemmensen, Department of Geosciences and Natural Resource Management, University of Copenhagen, Øster Voldgade 10, DK-1350 Copenhagen K, Denmark.  
Tel: +45 35322449; E-mail: larsc@ign.ku.dk;  
(clastic sedimentology, sedimentary basins and palaeoclimatology).

Ole Graversen, Department of Geosciences and Natural Resource Management, University of Copenhagen, Øster Voldgade 10, DK-1350 Copenhagen K, Denmark.  
Tel: +45 35322537; E-mail: oleg@ign.ku.dk;  
(structural geology and tectonics).

Michael Houmark-Nielsen, Natural History Museum of Denmark, University of Copenhagen, Øster Voldgade 5–7, DK-1350 Copenhagen K, Denmark.  
Tel: +45 35324344; E-mail: michaelhn@snm.ku.dk;  
(Quaternary geology).

Jesper Milàn, Geomuseum Faxe, Østsjællands Museum, Østervej 2, DK-4640 Faxe, Denmark.  
Tel: +45 23319488; E-mail: jesperm@oesm.dk;  
(palaeontology).

Lars Nielsen, Department of Geosciences and Natural Resource Management, University of Copenhagen, Øster Voldgade 10, DK-1350 Copenhagen K, Denmark.  
Tel: +45 35322454; E-mail: ln@ign.ku.dk;  
(geophysics).

Stig Schack Pedersen, Geological Survey of Denmark and Greenland (GEUS), Øster Voldgade 10, DK-1350 Copenhagen K, Denmark.  
Tel: +45 21252733; E-mail: sasp@geus.dk  
(structural geology, tectonics).

Jan Audun Rasmussen, Museum Mors, Fossil- og Mølermuseet, Skarrehagevej 8, DK-7900 Nykøbing Mors, Denmark.  
Tel: +45 42149792;  
E-mail: jan.rasmussen@museummors.dk;  
(palaeontology).

Erik Thomsen, Department of Geoscience, University of Aarhus, Høegh-Guldbergs Gade 2, DK-8000 Aarhus C, Denmark. Tel: +45 87156443; E-mail: erik.thomsen@geo.au.dk;  
(palaeontology and stratigraphy).

Henrik Tirsgaard, Mærsk Olie og Gas AS, Esplanaden 50, DK-1263 Copenhagen K, Denmark. Tel: +45 61209140; E-mail: Henrik.tirsgaard@maerskoil.com;  
(carbonate sedimentology, petroleum geology and sedimentary basins).

J. Richard Wilson, Department of Geoscience, University of Aarhus, Høegh-Guldbergs Gade 2, DK-8000 Aarhus C, Denmark. Tel: +45 25321169; E-mail: jrw@geo.au.dk;  
(igneous petrology and geochemistry).

The *Bulletin* publishes contributions of international interest in all fields of geological sciences, with a natural emphasis on results of new work on material from Denmark, the Faroes and Greenland. Contributions based on foreign material may also be submitted to the *Bulletin* if the subject is relevant for the geology of the area of primary interest. The rate of publishing is one volume per year. All articles are published as pdf-files immediately after acceptance and technical production.

Scientific editing and reviewing are done on an unpaid collegial basis; technical production expenses are covered by the membership fees.

The bulletin is freely accessible on the web page of the Geological Society of Denmark:  
<http://2dggf.dk/publikationer/bulletin/index.html>

## Instructions to authors:

See inside the back cover and also <http://2dggf.dk/publikationer/bulletin/vejledning.html>

*Cover:* Coastal flat at the south coast of Læsø, Kattegat. The flat is an abrasion plain of glacio-marine clays with a residual deposit of boulders. The boulders were originally deposited in the clay as dropstones from icebergs both before and after the last glaciation. Such boulder-strewn abrasion plains are marked landscape elements on southern Læsø and coastal flats south of the island. See this volume pp 1–55: Hansen, J.M. *et al.*: Continuous record of Holocene sea-level changes and coastal development of the Kattegat island Læsø (4900 years BP to present).  
Photo: © Conny Andersen, photo book 'Mit Læsø'.

## Instructions to authors

The *Bulletin* publishes articles normally not exceeding 30 printed pages, and short contributions not longer than 4 pages. Longer articles and monographs are also published, but in this case it is advisable to consult the chief editor before submitting long manuscripts. Short contributions may be comments on previously published articles, presentation of current scientific activities, short scientific notes, or book reviews.

Manuscripts with complete sets of illustrations, tables, captions, etc., should be submitted electronically to the chief editor (lml@geus.dk). The **main text** with references and figure captions should be either in Word or pdf format, **figures** should be in either pdf, jpeg, or tiff format, and **tables** should be in Word text format, i.e. written in lines with tab spacing between table columns, or in Excel format. "Word tables" are discouraged because they are not re-formatted easily. Consult the editor before submitting other formats.

Manuscripts will be reviewed by two referees; suggestions of referees are welcome. The final decision on whether or not a manuscript will be accepted for publication rests with the chief editor, acting on the advice of the scientific editors. Articles will be published in the order in which they are accepted and produced for publication.

## Manuscript

*Language* – Manuscripts should be in English. Authors who are not proficient in English should ask an English-speaking colleague for assistance before submission of the manuscript.

*Title* – Titles should be short and concise, with emphasis on words useful for indexing and information retrieval. An abbreviated title to be used as running title may also be submitted.

*Abstract* – An abstract in English must accompany all papers. It should be short (no longer than 250 words), factual, and stress new information and conclusions rather than describing the contents of the manuscript. Conclude the abstract with a list of key words.

*Main text* – Use 1.5 or double spacing throughout, and leave wide margins. Italics should be used only in generic and species names and in some Latin abbreviations (e.g. *c.*, *et al.*, *ibid.*, *op. cit.*).

*Spelling* – Geological units named after localities in Greenland, formal lithostratigraphical units and intrusions named after localities in Greenland remain unchanged even if the eponymous locality names have since been changed in accordance with modern Greenlandic orthography.

*References to figures, tables and papers* – References to figures and tables in the text should have the form: Fig. 1, Figs 1–3, Table 3 or as (Smith 1969, fig. 3) when the reference is to a figure in a cited paper.

References to papers are given in the form Smith (1969) or (Smith 1969). Combined citations by different authors are separated by a semicolon; two or more papers by same author(s) are separated by commas. Citations are mentioned chronologically and then alphabetically. Use 'et al.' for three or more authors, e.g. Smith *et al.* (1985).

## Reference list

Use the following style:

Smith, A.A. 1989: Geology of the Bulbjerg Formation. *Bulletin of the Geological Society of Denmark* 38, 119–144. [Note that name of journal is given in full].

Smith, A.A., Jensen, B.B. & MacStuff, C.C. 1987: Sandstones of Denmark, 2nd edition, 533 pp. New York: Springer Verlag. [For more than 10 authors, use first author followed by *et al.*].

Smith, A.A., Jensen, B.B. & MacStuff, C.C. 1992: Characterization of Archean volcanic rocks. In: Hansen, D.D. *et al.* (eds): *Geology of Greenland*. Geological Survey of Denmark and Greenland *Bulletin* 40, 1397–1438. [More than three editors – therefore *et al.* form is used].

*Sorting* – Danish letters æ, ø and å (aa) are treated as ae, o and a (aa), respectively.

References are sorted by:

- 1: Alphabetically by the first author's surname
- 2: Papers by one author: two or more papers are arranged chronologically
- 3: Papers by two authors: alphabetically after second author's name. Two or more papers by the same two authors: chronologically.
- 4: Papers by three or more authors: chronologically. Papers from the same year are arranged alphabetically after second, third, etc. author's name.

Authors themselves are responsible for the accuracy and completeness of their references. The reference list must include all, and only, the references cited in the paper (including figures, tables etc).

## Illustrations

May be prepared in either black and white or colour. There is no colour charge. Horizontal illustrations are much to be preferred. Size of smallest letters in illustrations should not be less than 5.5 pt. Remember scale.

All figures (including photographs) should be submitted in electronic form ready for direct reproduction, i.e. having the dimensions of the final figure with a standard resolution of 300 dpi for photographs. Preferred formats are pdf, tiff and jpg.

*Size* – The width of figures must be 82 mm, 125 mm or 171 mm. Maximum height is 223 mm.

*Captions* – Captions to figures and plates must be delivered on separate pages, preferably at the end of the manuscript.

## Supplementary data files

Supplementary files are accepted. Such files may provide e.g. analytical data tables, detailed data documentation, illustrations with special effects, or videos.

## Proofs

Authors receive page proofs of the article after technical production. The cost of any alterations against the final manuscript will be charged to the author.
